### Product Description

The VR18 is a double sided (you can use either side as the front face depending on your preference) retaining wall block aimed at the DIY market. Its smaller size allows easy handling and installation. Perfect for home and garden projects or even more complex commercial applications, this block is available in our traditional sandstone or standard concrete grey colour. It is made from 70% recycled construction and demolition material and is part of the GreenLock™ range of retaining wall blocks.
